

Reach Out and Read

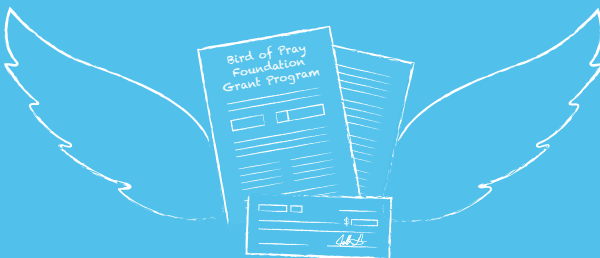

Our Reach Out and Read program provides parenting and children's books to families in Montana, giving them tools and information to better equip them for the most important job in the world: raising children. Proper parenting along with reading to children truly serves as a catalyst for healthy childhood development.

Community Grants

Bird of Pray Foundation's Community Grant Program offers an opportunity for qualified, local organizations to apply for grant funding for an upcoming project or need.

Bird of Pray Foundation awards funding to 501(c)(3) organizations and publicly-owned tax exempt organizations using the funds for a charitable purpose to benefit our community. We encourage grant requests for projects or programs that are consistent with our mission and values.

Bird of Pray Foundation is a 501(c)(3) nonprofit organization based out of Billings, Montana. We provide humanitarian aid and support for disadvantaged children and families in our community and around the world. We also collaborate with and support other nonprofits that are providing for children, families, and the disabled. We thank you for your interest and we hope you will have the opportunity to learn more about what we do and how you can be involved in changing the world, starting right here in Montana!

 Community Grants

 International Compassion

Foster Source

A large number of new foster parents quit within the first two years because they feel overwhelmed and unprepared for parenting children from a traumatic background. This program seeks to assist foster families by meeting pressing household needs and assisting with activity memberships, education and relevant training. Children in foster care need a lot of love, and foster families need a lot of encouragement and support to be able to bring lasting healing to vulnerable children.

Compassion Cars

This program provides safe, reliable transportation to economically vulnerable families and individuals who are referred to us by one of our partner agencies. We understand that reliable transportation in Montana is a vital component for self sufficiency, the care of children, stable employment, and the pursuit of education. This program is only made possible through the contributions of our supporters, volunteer labor, and partner businesses. You can contribute to this program by volunteering time, services or supplies. We are looking to partner with more businesses and individuals to assist with mechanical repairs, body work and detailing in order to provide clean, safe, functional, and essential vehicles to more Montana families.

Adoption Grants

The cost associated with adoption scares a lot of hopeful adoptive parents at first glance. And that's understandable — the process can be expensive. Most experts agree that one of the principal barriers to adoption is the expense. Our Adoption Grant Program is designed to help families complete their adoption and bring their children home by covering the cost of the home study. We partner with several placing agencies in Montana to ensure home study grants are provided for families that need them most.

International Compassion

Our international volunteer teams connect directly with organizations and individuals in distressed countries to solve real problems as intelligently and inexpensively as possible. Our teams have provided wheelchairs for disabled children, replaced roofs on homes and barns, replaced heating systems, provided educational materials, vehicles, clothing, winter gear, shoes and boots, food, baby supplies, medicine and vitamins to shelters, orphanages, foster families, and the disabled. We have even helped establish social enterprises that fill a need and at the same time fund the local humanitarian work needed in that area. Our dedicated teams always evaluate the need being presented and do their best to help with a long-term solution. These teams work alongside U.S. embassies, local governments, organizations such as the Red Cross, Samaritan's Purse and many other non-profit organizations.
